

The “Junior Cycle Sport (JCS)” Story

The Team

Junior Cycle Sport (*formerly known as Andrie Junior Development Team*) has been Michigan's premier road racing team for racers “18 years old and under” since 2011. In their brief existence the team has captured 17 National Titles and 33 National medals in road racing. I developed this site with the purpose of informing the general cycling community about the team's performance and providing potential sponsors with a history of the team's accomplishments. Andrie Transportation was stepping away as the main sponsor and there was a need to replace this title sponsor.

The Building of the Website

For the basic structure of this team's first website I purchased a template from themeforest titled “SPORTS CUP” by IwTemes and configured it to the needs of JCS. It is a HTML5/CSS3 Bootstrap Template. I revised and updated this website for three years until the COVID Lockdown. The vast majority of the photos were taken by me and Steve Fox was instrumental in writing the news articles.

- Revised Version: 2019 New Name “[Junior Cycle Sport](#)”
- Revised Version: 2018 Andrie Junior Development Team
- Original Website Version: 2017 Andrie Junior Development Team

The Branding

The team's coaches , Brant and Jason, re-branded the team with “Junior Cycle Sport(JCS)” and I started the process of branding this new name across social media platforms. The problem with the name was that Trademark Office considered it too generic and I had to add the term “Devo” to the JCS for the Trademark filing. All official documentation and social media profiles are referred to as “JCSDevo” but everyone uses the “JCS” term without the Devo when referring to the team and this has stuck with the cycling community.

The Results

With the outreach work of Jason, JCS was able to get a new title sponsor and bike shop supporter. Wynalda Packaging is now the title sponsor and Village Bike Shop is the supplier of bikes and components. Jason has related that the website and social media presence was a positive for the team's outreach. Jason has stated that the website does need to be updated so the new JCS name is more prominent.
