

Case Study on CNN

This Case study on CNN will be done during the month of July.

The original thought was to investigate how to combine all forms for a family into 1 form for registration. The last registration I did for three family members and had to fill out the same information 12 times over. How to streamline this process.

Overview

Summary – Key takeaways and the key results

The Challenge

Project background and Description

The Problem

Project Goals

The Process

To detail creative concept and insight into the design decisions

The Solution

Show samples of the work

The Results

Report out on the metrics
